"Bald-headed men generally seem so cheerful and happy." "Of course; they can't remember how they looked when can't remember how they looked when they had hair."—Indianapolis Journal.

"Who was the scientist who made the discovery that haldness was a sign of the scientist who had be a very fine marble shaft."

"Who was the scientist who made the discovery that haldness was a sign of the scientist who had be a very fine marble shaft." discovery that baldness was a sign of lities. I wish that the wives and moth-reared over the resting place, but the intellect?" "I don't know his name. ers and caughters and sisters of all the whole thing may be a falsehood and a when Christ shall gather those who keeping up the fertility of the soil.

THE STORY OF DORCAS crown; epic poet has sung of the shows the garments which the departsword; the pastoral poet, with his ed had made. Orphans are lifted up verses full of the redolence of clover to look into the calm face of the sleepcorn, has sung the praises of the plow. comes and kisses the cold brow of her I tell you the praises of the needle. who charmed it away from sin, and From the fig leaf robe prepared in the all through the streets of Joppa there garden of Eden to the last stitch taken | is mourning-mourning because Doron the garment for the poor the needle | cas is dead. When Josephine of France has wrought wonders of kindness, gen- was carried out to her grave, there erosity and benefaction. It adorned were a great many men and women the girdle of the high priest, it fash-ioned the curtains in the ancient taber-went out after her, but I am most nacle, it cushioned the chariots of King affected by the story of history that Solomon, it provided the robes of Queen on that day there were 19,000 of the Dr. Talmage, who is still traveling in Elizabeth, and in high places and in poor of France who followed her coffurthern Europe, has forwarded the low places, by the fire of the planeer's fin, weeping and walling until the ali ollowing report of a sermon in which | back log and under the flash of the | rang again, because when they lost is utters helpful words to all who are chandeller, everywhere, it has clothed Josephine they lost their last earthly friend. Oh, who would not rather have such obsequies than all the tears be crowned at the last; text, Acts 9:39; want with the war cry of "Stitch, that were ever poured in the lach"And all the widows stood by him stitch, stitch!" The operatives have pymals that have been exhumed from weeping and showing him the coats found a livelihood by it, and through ancient cities? There may be no musa and garments which Doreas made it the mansions of the employer are for the dead; there may be no costly sarcophagus; there may be no elaborate mausoleum, but in the damp cellars of the city and through the lonely be mourning, mourning, mourning, because Dorcas is dead; "Blessed are punctured the eye; it has pierced the the dead who die in the Lord; they wheel, being an overshot windmill. Simrest from their labors, and their works do follow them."

I speak to you of Doreas the resurrected. The apostle came to where she was and said: "Arise, and she sat up!" In what a short compass the great writer put that "She sat up." Oh, what a time there must have been around that town when the apostle brought her out among her old friends! How the tears of joy must have started! What a clapping of hands there must have been! What singing! What laughter! Sound it all through that lane! Shout it down that dark alley! Let all Joppa hear it! Doreas is resurrected!

You and I have seen the same thing many a time; not a dead body resuscitated, but the deceased coming up again after death in the good accomplished. If a man labors up to 50 years of age, serving God, and then dies, we are apt to think that his earthly work is done. No. His influence on earth will continue till the world ceases. Services rendered for through many anxieties, through many self-denials, with prayers and tears, and then she dies. It is 15 ears since she went away. Now the pirit of God descends upon that church, hundreds of souls stand up that Christian woman, who went away 15 years ago, nothing to do with these things? I see the flowering out of her noble heart. I hear the echo of her footsteps in all the songs over sins forgiven, in all the prosperity of the church. The good that seemed to be resurrected!

After awhile these womanly frien of Christ will put down their needle the robe for the grave. You will have "The fongue is an unruly ment tame; it haunts of wretchedness the news history of Buddhism and Mohamme-history of pain. You will have a new history of Buddhism and Mohamme-history of pain. You will have a new history of Buddhism and Mohamme-history of Bu again."-"Falls like Lucifer Never to the stages of a king's disease is more talk beautifully about the suffering of You will have come in worn out from and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible, then in either case take the ONLY.

"Thick as autumn leaves in Vallom."

"Thick as autumn leaves in Vallom." a lamp burning at that tomb, and an angel of God guarding it, and through all the long night no rude foot will disturb the dust. Sleep on, sleep on. Soft bed, pleasant shadows, undis-

turbed repose! Sleep on! Asleep in Jesus! Blessed sleep From which none ever wake to weep! Then one day there will be a sky chains clanking, banners waving, thunders booming, and that Christian woman will rise from the dust, and she will she reclaimed, surrounded by the wounded souls to whom she had adthat the victory is won, that the crown is ready, that the banquet is spread. Shout it through all the crumbling this subject up. A state convention Heavens. Doreas is resurrected.

London, the queen of England distrib- for better roads. The value of this uted among them beautiful medals movement cannot be overestimated to called Crimean medals. Galleries were the farmers of Kansas.-Topeka Caperected for the two houses of parlia- ital. ment and the royal family to sit in. There was a great audience to witness the distribution of the medals. A

God save our gracious queen! Long live our noble queen! God save the queen!

And then they shouted: "Huzza, huzza!" Oh, it was a proud day for "When woman gets into polities," asked the shoe clerk, "will she have a pull?" "She will," answered the Cheerful Idiot, "if her husband is baid-headed."—Indianapolis Journal.

That you attend to the brst, last and greatest this world without being missed.

Unrising incaves this world without being missed.

The church of God cries out like the fields dear to earth and dear to Heaven dation of your farming, and it must be fields dear to earth and dear to Heaven made firm if you would be successful.—

Further, we see Doreas the benefactory of the dation of your allered. Widowhood comes and tress. History has told the story of the dation of your farming, and it must be fields dear to earth and dear to Heaven has fallen!" Widowhood comes and tress. History has told the story of the dation of your sides which we have done, but with those four great battle-fields dear to earth and dear to Heaven has fallen!" Widowhood comes and tress. History has told the story of the tress. History has told the story of the tress.

Some of Them Are Fearfully and Wonderfully Made, But All Are Quite Effective.

HOMEMADE WINDMILLS.

Extending in an almost unbroken succession from Omaha to Denver and from South Dakota through Nebraska, Kansas and Oklahoma, with Kansas clainly the center of the movement, omemade windmills of various designs are in daily use. Whether of patterns variously known as jumbos, mery-go-round, battle-ax, Holland or turbine mills, they are all successful. And it is a strange fact that wherever the omemade mills are found, shopmade, solid and substantial mills are iso numerous and satisfactory.

The jumbo or go-devil mill is much like an old-fashloned overshot water

WATERING BY WIND POWER.

ple in design, almost any material may be used in its construction, such as old umber, lath, shingles, split rails, old packing boxes, barrels staves, coffee sacks and even tin from tin roofs. Jumbo mills can be used to pump water for the house, for stock or for irrigation of small patches of orchard or garden. Jumbos have been made large nough to irrigate ten acres of orchard. If the best use is made of the jumbo the results are not to be despised. They must be set to catch the prevailing winds, which in western Kansas are north and south.

Where there are but four fans, it often happens the wings are in such a position, as they revolve, that but a single fan is struck by the wind at a time, whereas in the case of six or eight fans, two, three or four may catch the wind at a time, thus giving the mill just that much additional strength.

The cut shows the six-fan jumbo mill on the farm of W. W. Goodrich, of Bethburied has come up again. Dorcas is any, Neb., used for watering a six-acre egg plant patch. The fans are each 9 feet long, with arms 51/4 feet. The jumbo box is 9x11x6 feet high, with doors below for escape of dead air. With a Damascus steel axis, such a mill cost about eight dollars; with a gas pipe axis, one can be built for three dollars .- Farm and Home.

PROGRESS IN KANSAS.

hor what | Farmers of the Sunflower State Are Beginning to Be Interested in Highway Improvement.

The agitation for good roads has reached Kansas. While it is true that much attention has been given the subect, and under the present road laws wherever there is a good road overseer who enforces the law we have fair roads, there is a lack of systematic rending and a whirr of wheels and the drainage and thorough work. At a reflash of a pageant, armies marching, cent convention in this county the trustees, clerks and treasurers of townships, county commissioners and a committee from the League of American be suddenly surrounded -surrounded Wheelmen met and discussed the subby the wanderers of the street whom | ject of good roads at length. The suggestion was made of a state convention to secure uniform action all over ministered. Daughter of God, so the state. At such a convention it was strangely surrounded, what means stated that the manufacturers of imthis? It means that reward has come, proved roadmaking nachinery would be present to show what could be done.

We believe Kansas is ready to take earth. Sing it through all the flying | would result in bringing together an enthusiastic body of men who would In 1855, when some of the soldiers | cooperate in accuring legislation and came back from the Crimean war to adopting the most intelligent methods

Bluegrass Seeding for Lawns.

The plat intended for the lawn colonel who had lost both feet in the should be very finely pulverized for the battle of Inkermann was pulled in an | reception of the seed, which should be a wheel chair; others came in limping sown early in the spring either broadtheir crutches. Then the queen of wast or with seeder, at the rate of about England arose before them in the name three bushels per acre. The old-fashof her government and uttered words loued Kentucky bluegrass is the best of commendation to the officers and for the purpose mentioned; it makes men and distributed those medals, in- a good, firm sod and is particularly well seribed with the four-great battlefields suited for turfing the slopes of em--Alma, Balaklava, Inkermann and Se-vastopol. As the queen gave these to the wounded officers the hands of music | well adapted for hay as for pasture. struck up the national air, and the No grass will do well where the shade people, with streaming eyes, joined in Is too heavy, but Kentucky bluegrass kept cut pretty short, it will thrive in light shade .- Farmers' Voice.
